This day Major General Pollock, C. B., passed the Suley at the head of the artillery and cavalry of the 2d Brigade of infantry of the army under his command.

The 26th regiment of native infantry attached to the 2d Brigade, was, at the order of the Governor General, formed into a hollow square, and the Governor General entering the square, Major Pollock, informed Major Munshi, commanding the regiment, that he was, on the 17th inst., in an especial manner, exposed his obligations to the 26th regiment, and that their exemplary conduct on all occasions, as in the case of the 26th, was a particular mark of the approbation of the Government, he had great satisfaction in bestowing it on them, as their return to India, and of being henceforward a regiment of light infantry.

GENERAL ORDER BY THE RIGHT HONORABLE THE GOVERNOR GENERAL OF INDIA.

Secret Department, Camp Ferozpur, the 20th Dec. 1842.

By order of the Right Honorable the Governor General of India,

Major General W. Nott,

Commanding East Force.

T. H. MADDOCK, Esq.

Secy. to the Government of India,

with the Governor General

Camp, Ludiana, the 20th Dec. 1842.

I find that in my despatch of the 21st of August last detailing you to the Punjab, I inadvertently omitted the name of Captain Ripley of the 1st European regiment of Infantry at Calcutta. Although his name was inserted in the despatch, it is impossible to know how he reached the Punjab, which I am sorry for, as Captain Ripley is a very brave and able officer, and I have frequently derived benefit from his public services. In the battle he attacked me in the field, and secured my thanks for his conduct.

I am, Sir,

(Signed) W. Nott, Major General,
Commanding East Force.

NOTICE

Touching the Pilot Station for the River Hooghly during the S. W. Monsoon of the Year 1843.

NOTICE is hereby given, that the same causes existing which during last S. W. Monsoon rendered necessary the removal of the Pilot Station from off Point Palmyras to a position 6 or 8 miles S. W. of the outer Floating Light, and in from 16 to 20 fathoms water, this latter Station will be continued during the next S. W. Monsoon, viz. from 15th March to the 15th September.

During the last S. W. Monsoon, no difficulty would appear to have been experienced by Vessels passing from False Point Light House to the New Station, nor can any be left, if common attention be paid to the lead and to the following Directions prepared by Captain Lloyd, late Officiating Marine Surveyor General, after a careful Survey of the ground between the two Points.

False Point Light House is in Latitude 20° 10' 15" N. and Longitude 86° 47' E., and that of the South Channel Buoy in Latitude 20° 59' N. and Longitude 88° 4' E., and bears from the former N. 61 E. true N. E. by E. $\frac{1}{4}$ E. by Compass distant 83 miles, and is laid in 12 fathoms.

A Bank of Soundings extends from off Point Palmyras, in a direction towards the tail of the Western Sea Reef, and the nature of the bottom (as distinguished from that of the Hooghly deposit which is sand and mud with shining specks,) is a gravelly substance composed of sand shells and small pebbles discharged from the "Kunka," and other Rivers, near Point Palmyras, the lighter material of which being carried further out, is deposited and forms what is called the Pilots' Ridge, which in crossing to the N. Wd. shows a little less water than on either side. In coming from seaward you shoal rather suddenly from 24 to 28 fathoms upon its Eastern Edge. It is composed of a shelly sand or minute gravel of a reddish or rusty brown colour.

The best guide therefore to enable a Vessel to direct her course from False Point to the Vessels at the New Station, will be to run down the Edge of the Pilots' Bridge, which can readily be done by making the Light House and bringing it to bear about W. S. W. or S. W. by W. distant by computation from 10 to 15 miles then steering to the E. N. E. and having gradually increased the depth of water to 23 fathoms upon the Eastern Edge of the Ridge, regulate the course to keep between it and 27 fathoms, when by attention to the lead and nature of the Soundings, course and distance run from the Light House, it is almost impossible to miss the Pilot Vessels, (if the above limits are kept within) either by getting too far to Windward or falling to Leeward; for the Soundings increase so rapidly to seaward from the proposed New Station, that 28 fathoms will not be more than 3 or 4 miles to the Southward of it and 23 fathoms the same distance to the Westward of it.

"The Soundings to seaward of the Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken shells mixed with it."

Vessels approaching the Station during the day are required to shew the usual Signal for a Pilot and by night to give as early and as much warning as possible by firing Guns, burning Blue Lights and by exhibiting two Lights in a vertical position, where best seen, but Commanders are recommended to avoid as much as possible making the Station during the night. To mark the Station one of the Pilot Vessels will shew during the day a large St. George's Jack (white with red cross) at the Main Top Gallant Mast Head and a good Mast Head Light during the night and will burn a Blue Light and a Maroon alternately every half hour and fire a Gun at 8 p. m. at midnight

* The Light Vessels are directed when another Vessel is approaching during the night, shew a Light at the Gaff end to mark the way they are riding.

and at 4 a. m. Vessels approaching the Station and while there, as well as when approaching the Light, and Buoy Station Vessels are warned to be careful in avoiding collision by night or by day and in communicating with either of the above Vessels, either at anchor or hove too, when it is necessary to cross her to pass under the Stern, several instances of serious damage having occurred during the S. W. Monsoon, whereby the outer Floating Light was more than once compelled to leave her Station for repairs to the great inconvenience and risk of Vessels entering and quitting the River.

A Vessel will be stationed off False Point Light House, keeping it according to circumstances W. by S. to N. W. by N., in from 10 to 15 fathoms water.

She will exhibit during the day, when Vessels are in sight, a large Danish Jack at the Main Top Gallant Mast Head (red with white cross) and during the night a good Mast Head Light in the same place and will burn a Blue Light every half hour.

This Vessel will have no Pilot on board and is only intended generally to furnish information touching the Course to the New Station, but particularly to do so to Vessels which may be in ignorance of the position of the New Station.

DIRECTIONS

For Vessels entering the Moulmein River.

A Vessel coming from the southward on sighting the fair way Buoy, which is a Black Buoy with two white rings, painted on the upper part of it, and placed in $4\frac{1}{2}$ fathoms water, on a patch of broken ground, of about 250 yards in extent, from which the present Reef Buoy bears N. 40° East, distant one and a half miles. A white Pagoda on the summit of the Eastern Hill, on the South end of Biloo Island, N. 10° East Amherst large Pagoda near the Flag Staff S. 84° East, a conspicuous tree on the centre of the small Island off Amherst, S. $61\frac{1}{2}^\circ$ East, a Vessel ought to stand direct for this Buoy and passing to the westward of it, you may then with a fair wind steer direct for the Reef Buoy, being careful not to bring it to northward of North East so as to avoid the Sunken Rocks and Foul Ground, extending from the Reef of Rocks off Amherst. The Reef Buoy is a Black Buoy, placed off the N. W. extreme of the Amherst or Queekini Reef in 7 fathoms, from which the white Pagoda on Biloo Island, bears N. 5° East, Amherst large Pagoda S. 54° East the conspicuous tree on the Island off Amherst S. 29° East, passing this Buoy at one hundred and fifty or two hundred yards distance you may then stand in direct for the middle ground Buoy, which is also black, and situated on a Sunken Rock, in $\frac{3}{4}$ of a fathom at low water, with deep water on all sides of it, and bears from the Reef Buoy N. 84° East, distant $1\frac{1}{2}$ miles, carrying from 7 to 4 fathoms at low water, passing this Buoy to the northward you may then stand on to the eastward, and Anchor in $3\frac{1}{2}$ or 4 fathoms, when the conspicuous tree on the centre of Amherst Island is in one with Amherst Point, which forms a Bluff close to the large Pagoda.

A Vessel getting at all to the northward, when outside the Reef Buoy, will avoid the S. W. extreme of the Goodwin Sand by keeping Amherst large Pagoda in one with the Reef Buoy, or open to the southward of it.

When inside the Reef Buoy the middle ground Buoy bearing E. 7° S. will take a Vessel clear of the South extreme of the Sand on the North side of the Channel, but it ought not to be brought to bear at all to the Sd. It is high water on full and change at the Reef Buoy at 2 hours.

Amherst large Pagoda is in { Latitude $16^\circ 04' 48''$ N.
Longitude $97^\circ 35' 06''$ E.

N. B.—In coming into the River keep all Black Buoys on your right hand and all Red on your left hand.

SHIPPING INTELLIGENCE.

Extract from the Log of the Barque "Planet."

Wednesday, 7th September, 1842.—At 1 P. M. observed the water on the Starboard bow much discoloured, kept the Ship away and sent a hand aloft to look out, who observed the same in patches as far as the eye could reach, running about W. S. W. and E. N. E. passed over the tail of one patch and had as near as we could suppose, 9 fathoms on a Sandy bottom a quantity of sand fast to the lead when hauled in. The extent of the Shoal appeared to be about 3 miles, Latitude 16° 23' N. Longitude 84° 10' East.

Captain Thompson further states that in the centre of this Shoal there were heavy breakers, the weather had been squally in the forenoon, but was then more moderate, though the breeze was fresh and a swell in consequence. They had no Meridian Observation, but the Longitude was determined and laid down by good sights taken that morning and an excellent Chronometer.

OVERLAND LETTERS AND POSTAGE.

IT is hereby notified for general information—

First—That all Letters and Newspapers, except Soldiers' and Sailors' Letters, intended for transmission by the Overland Mails, and except those specially marked via "Falmouth," will be sent through France, and thus be subject to the heavier rate of postage.

Second—Letters and Newspapers addressed to France as well as those to other foreign countries, with which France is the channel of communication (if the latter are expressly directed to be so sent) will be made up in Packets and sent to the French Post Master at Marseilles; but Letters for Foreign Countries, other than France, if not specially directed to France, will be included in the Packets for England. Letters, &c. for places lying between Bombay and Marseilles, will be despatched in separate Packets.

Third—Letters for the United Kingdom of Great Britain, weighing less than a quarter of an ounce, and passing through France, are charged single postage, which by that route amounts to 2s. 6d. By the Falmouth route, Letters of half an ounce in weight, are subject to single postage only, which by that route, has now been reduced to 1s.

Newspapers, if sent via Falmouth, are free of postage; but if transmitted by the way of Marseilles, they are charged 2d. each.

NOTICE

Touching the Pilot Station for the River Hooghly during the S. W. Monsoon of the Year 1843.

NOTICE is hereby given, that the same causes existing which during last S. W. Monsoon rendered necessary the removal of the Pilot Station from off Point Palmyras to a position 6 or 8 miles S. W. of the outer Floating Light, and in from 16 to 20 fathoms water, this latter Station will be continued during the next S. W. Monsoon, viz. from 15th March to the 15th September.

During the last S. W. Monsoon, no difficulty would appear to have been experienced by Vessels passing from False Point Light House to the New Station, nor can any be left, if common attention be paid to the lead and to the following Directions prepared by Captain Lloyd, late Officiating Marine Surveyor General, after a careful Survey of the ground between the two Points.

False Point Light House is in Latitude 20° 19' 13" N. and Longitude 86° 47' E. and that of the South Channel Buoy in Latitude 20° 59' N. and Longitude 88° 4' E. and bears from the former N. 61 E. true N. E. by E $\frac{1}{4}$ E. by Compass distant 83 miles, and is laid in 12 fathoms.

A Bank of Soundings extends from off Point Palmyras, in a direction towards the tail of the Western Sea Reef, and the nature of the bottom (as distinguished from that of the Hooghly deposit which is sand and mud with shining specks,) is a gravelly substance composed of sand shells and small pebbles discharged from the "Kunka," and other Rivers, near Point Palmyras, the lighter material of which being carried further out, is deposited and forms what is called the Pilots' Ridge, which in crossing to the N. Wd. shews a little less water than on either side. In coming from seaward you shoal rather suddenly from 26 to 23 fathoms upon its Eastern Edge. It is composed of a shelly sand or minute gravel of a reddish or rusty brown colour.

The best guide therefore to enable a Vessel to direct her course from False Point to the Vessels at the New Station, will be to run down the Edge of the Pilots' Ridge, which can readily

be done by making the Light House and bringing it to bear about W. S. W. or S. W. by W. distant by computation from 10 to 15 miles then steering to the E. N. Ed. and having gradually increased the depth of water to 23 fathoms upon the Eastern Edge of the Ridge, regulate the course to keep between it and 27 fathoms, when by attention to the lead and nature of the Soundings, course and distance run from the Light House, it is almost impossible to miss the Pilot Vessels, (if the above limits are kept within) either by getting too far to Windward or falling to Leeward; for the Soundings increase so rapidly to seaward from the proposed New Station, that 28 fathoms will not be more than 3 or 4 miles to the Southward of it and 23 fathoms the same distance to the Westward of it.

"The Soundings to seaward of the Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken shells mixed with it."

Vessels approaching the Station during the day are required to shew the usual Signal for a Pilot and by night to give as early and as much warning as possible by firing Guns, burning Blue Lights and by exhibiting two Lights in a vertical position, where best seen, but Commanders are recommended to avoid as much as possible making the Station during the night. To mark the Station one of the Pilot Vessels will shew during the day a large St. George's Jack (white with red cross) at the Main Top Gallant Mast Head and a good Mast Head, Light during the night and will burn a Blue Light and a Maroon alternately every half hour and fire a Gun at 8 p. m. at midnight

* The Light Vessels are directed when another Vessel is approaching during the night, shew a Light at the Gaff end to mark the way they are sailing.

Vessels approaching the Station and while there, as well as when approaching the Light, and Buoy Station Vessels are warned to be careful in avoiding collision by night or by day and in communicating with either of the above Vessels, either at anchor or hove to, when it is necessary to cross her to pass under the Stern, several instances of serious damage having occurred during the S. W. Monsoon, whereby the outer Floating Light was more than once compelled to leave her Station for repairs to the great inconvenience and risk of Vessels entering and quitting the River.

A Vessel will be stationed off False Point Light House, keeping it according to circumstances W. by S. to N. W. by N., in from 10 to 15 fathoms water.

She will exhibit during the day, when Vessels are in sight, a large Danish Jack at the Main Top Gallant Mast Head (red with white cross) and during the night a good Mast Head Light in the same place and will burn a Blue Light every half hour.

This Vessel will have no Pilot on board and is only intended generally to furnish information touching the Course to the New Station, but particularly to do so to Vessels which may be in ignorance of the position of the New Station.

NOTICE.

The following Directions for Vessels entering the Moulmein River, prepared by Lieut. W. Fell, I. N., are published for general information.

By order of the Marine Board,

C. B. GREENLAW,
Secretary.

Fort William, }
The 12th Dec., 1842. }

DIRECTIONS

For Vessels entering the Moulmein River.

A Vessel coming from the southward on sighting the fair way Buoy, which is a Black Buoy with two white rings, painted on the upper part of it, and placed in $4\frac{1}{2}$ fathoms water, on a patch of broken ground, of about 250 yards in extent, from which the present Reef Buoy bears N. 40° East, distant one and a half miles. A white Pagoda on the summit of the Eastern Hill, on the South end of Biloo Island, N. 10° East Amherst large Pagoda near the Flag Staff S. 81° East, a conspicuous tree on the centre of the small Island off Amherst, S. 61½° East, a Vessel ought to stand direct for this Buoy and passing to the westward of it, you may then with a fair wind steer direct for the Reef Buoy being careful not to bring it to northward of North East so as to avoid the Sunken Rocks and Foul Ground, extending from the Reef of Rocks off Amherst. The Reef Buoy is a Black Buoy, placed off the N. W. extreme of the Amherst or Queekini Reef in 7 fathoms, from which the white Pagoda on Biloo Island, bears N. 5° East, Amherst large Pagoda S. 54° East the conspicuous tree on the Island off Amherst S. 29° East, passing this Buoy at one hundred and fifty or two hundred yards distance you may then stand in direct for the middle ground Buoy, which is also black, and situated on a Sunken Rock, in $\frac{1}{2}$ of a fathom at low water, with deep water on all sides of it, and bears from the Reef Buoy N. 84° East, distant $1\frac{1}{2}$ miles, carrying from 7 to 4 fathoms at low water, passing this Buoy to the northward you may then stand on to the eastward, and Anchor in 3½ or 4 fathoms, when the conspicuous tree on the centre of Amherst Island is in one with Amherst Point, which forms a Bluff close to the large Pagoda.

A Vessel getting at all to the northward, when outside the Reef Buoy, will avoid the S. W. extreme of the Goodwin Sand by keeping Amherst large Pagoda in one with the Reef Buoy, or open to the southward of it.

When inside the Reef Buoy the middle ground Buoy bearing E. 7° S. will take a Vessel clear of the South extreme of the Sand on the North side of the Channel, but it ought not to be brought to bear at all to the Sd. It is high water on full and change at the Reef Buoy at 2 hours.

Amherst large Pagoda is in { Latitude 10° 04' 48" N.
{ Longitude 97° 35' 06" E.

N. B.—In coming into the River keep all Black Buoys on your right hand and all Red on your left hand.

SHIPPING INTELLIGENCE.

Extract from the Log of the Barque "Planet."

Wednesday, 7th September, 1842—At 1 p.m. observed the water on the Starboard bow much discoloured, kept the Ship away and sent a hand aloft to look out, who observed the same in patches as far as the eye could reach, running about W. S. W. and E. N. E. passed over the tail of one patch and had as near as we could suppose, 9 fathoms on a Sandy bottom a quantity of sand fast to the lead when hauled in. The extent of the Shoal appeared to be about 3 miles, Latitude 16° 23' N. Longitude 84° 10' East.

Captain Thompson further states that in the centre of this Shoal there were heavy breakers, the weather had been equally in the forenoon, but was then more moderate, though the breeze was fresh and a swell in consequence. They had no Meridian Observation, but the Longitude was determined and laid down by good sights taken that morning and an excellent Chronometer.

GENERAL ORDERS BY THE RIGHT HONORABLE THE GOVERNOR GENERAL OF INDIA.

Camp Ferozepore, the 27th December, 1842.

The Governor General is pleased to appoint

His Excellency GOROI CLERK, Esq.,

Envoy to the Maharajah Shere Singh;

Major General LUMLEY,

Adjutant General of the Army;

Major General SMITH,

Adjutant General H. M. Forces;

Brigadier MONTEATH, C. B., and

Brigadier WYMER;

to be a Court of Enquiry into the conduct of Major Pottinger, subsequently to the death of Sir William Macnaghten, until he became a prisoner to the Afghans.

The Court to have the power of sending for persons, papers and records, and to appoint its own Secretary, and any writers who may be required.

The Secretary to the Government of India will place before the Court, on its assembling, all the papers which are now in the office, apparently bearing upon the matters to be subjected to enquiry.

All evidence taken is to be recorded and reported.

The Court will communicate its opinion upon the question whether the conduct of Major Pottinger, from the death of Sir William Macnaghten, until he became a prisoner, was under then existing circumstances best calculated to secure the safety of the British army at Cabool, and to maintain the honor of the British arms.

The Court will also report their opinion upon the question, whether the bills drawn by Major Pottinger upon the British Government, within the period above mentioned, were drawn by him in the exercise of legitimate authority and of due discretion: and whether the circumstances under which, and any conditions upon which, they may have been drawn and made payable, were duly made known to the several persons in whom they were delivered or by whom they were negotiated.

The Court will assemble on the day subsequent to the date of this Order, at the tent of His Excellency the Envoy to Maharajah Shere Singh, who will act as President of the Court.

By order of the Right Hon'ble the Governor General of India,

T. H. MADDOCK,

Secy. to the Government of India,

NOTICE

Touching the Pilot Station for the River Hooghly during the S. W. Monsoon of the Year 1843.

NOTICE is hereby given, that the same causes existing which during last S. W. Monsoon rendered necessary the removal of the Pilot Station from off Point Palmyras to a position 6 or 8 miles S. W. of the outer Floating Light, and in from 16 to 20 fathoms water, this latter Station will be continued during the next S. W. Monsoon, viz. from 15th March to the 15th September.

During the last S. W. Monsoon, no difficulty would appear to have been experienced by Vessels passing from False Point Light House to the New Station, nor can any be left, if common attention be paid to the lead and to the following Directions prepared by Captain Lloyd, late Off. Acting Marine Surveyor General, after a careful survey of the ground between the two Points.

False Point Light House is in Latitude $20^{\circ} 19' 1\frac{1}{2}''$ N. and Longitude $86^{\circ} 47'$ E., and that of the South Channel Buoy in Latitude $20^{\circ} 59'$ N. and Longitude $88^{\circ} 4'$ E., and bears from the former N. 61 E. true N. E. by E $\frac{1}{4}$ E. by Compass distant 83 miles, and is laid in 12 fathoms.

A Bank of Soundings extends from off Point Palmyras, in a direction towards the tail of the Western Sea Reef, and the nature of the bottom (as distinguished from that of the Hooghly deposit which is sand and mud with shining specks,) is a gravelly substance composed of sand shells and small pebbles discharged from the "Kunka," and other Rivers, near Point Palmyras, the lighter material of which being carried further out, is deposited and forms what is called the Pilots' Ridge, which in crossing to the N. Wd. shews a little less water than on either side. In coming from seaward you shoal rather suddenly from 28 to 23 fathoms upon its Eastern Edge. It is composed of a shelly sand or minute gravel of a reddish or rusty brown colour.

The best guide therefore to enable a Vessel to direct her course from False Point to the Vessels at the New Station, will be to run down the Edge of the Pilots' Ridge, which can readily be done by making the Light House and bringing it to bear about W. S. W. or S. W. by W. distant by computation from 16 to 18 miles then steering to the E. N. Ed. and having gradually increased the depth of water to 23 fathoms upon the Eastern Edge of the Ridge, regulate the course to keep between it and 27 fathoms, when by attention to the lead and nature of the Soundings, course and distance run from the Light House, it is almost impossible to miss the Pilot Vessels, (if the above limits are kept within) either by getting too far to Windward or falling to Leeward; for the Soundings increase so rapidly to seaward from the proposed New Station, that 28 fathoms will not be more than 3, or 4 miles to the Southward of it and 26 fathoms the same distance to the Westward of it.

* The Soundings to seaward of the Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken shells mixed with it."

Vessels approaching the Station during the day are required to shew the usual Signal for a Pilot and by night to give as early and as much warning as possible by firing Guns, burning Blue Lights and by exhibiting two Lights in a vertical position, where best seen, but Commanders are recommended to avoid as much as possible making the Station during the night. To mark the Station one of the Pilot Vessels will shew during the day a large St. George's Jack (white with red cross) at the Main Top Gallant Mast Head and a good Mast Head, Light during the night and will burn a Blue Light and a Maroon alternately every half hour and fire a Gun ■

8 P. M. at midnight

* The Light Vessels are directed when another Vessel is approaching during the night, shew a Light at the Gaff end to mark the way they are riding.

and at 4 A. M. Vessels approaching the Station and while there, as well ■ when approaching the Light, and Buoy Station Vessels are

warned to be careful in avoiding collision by night or by day and in communicating with either of the above Vessels, either at anchor or hove too, when it is necessary to cross her to pass under the Stern, several instances of serious damage having occurred during the S. W. Monsoon, whereby the outer Floating Light was more than once compelled to leave her Station for repairs to the great inconvenience and risk of Vessels entering and quitting the River.

A Vessel will be stationed off False Point Light House, keeping it according to circumstances W. by S. to N. W. by N., in from 10 to 15 fathoms water.

She will exhibit during the day, when Vessels are in sight, a large Danish Jack at the Main Top Gallant Mast Head (red with white cross) and during the night a good Mast Head Light in the same place and will burn a Blue Light every half hour.

This Vessel will have no Pilot on board and is only intended generally to furnish information touching the Course to the New Station, but particularly to do so to Vessels which may be in ignorance of the position of the New Station.

DIRECTIONS

For Vessels entering the Moulmein River.

A Vessel coming from the southward on sighting the fair way Buoy, which is a Black Buoy with two white rings, painted on the upper part

of it, and placed in 43 fathoms water, on a patch of broken ground, of about 250 yards in extent, from which the present Reef Buoy bears N. 40° East, distant one and a half miles. A white Pagoda on the summit of the Eastern Hill, on the South end of Biloo Island, N. 10° East Amherst large Pagoda near the Flag Staff S. 81° East, a conspicuous tree on the centre of the small Island off Amherst, S. 61½° East, a Vessel ought to stand direct for this Buoy and passing to the westward of it, you may then with a fair wind steer direct for the Reef Buoy, being careful not to bring it to northward of North East so as to avoid the Sunken Rocks and Foul Ground, extending from the Reef of Rocks off Amherst. The Reef Buoy is a Black Buoy, placed off the N. W. extreme of the Amherst or Queekini Reef in 7 fathoms, from which the white Pagoda on Biloo Island, bears N. 5° East, Amherst large Pagoda S. 51° East the conspicuous tree on the Island off Amherst S. 29° East, passing this Buoy at one hundred and fifty or two hundred yards distance you may then stand in direct for the middle ground Buoy, which is also black, and situated on a Sunken Rock, in ¾ of a fathom at low water, with deep water on all sides of it, and bears from the Reef Buoy N. 84° East, distant 1½ miles, carrying from 7 to 4 fathoms at low water, passing this Buoy to the northward you may then stand on to the eastward, and Anchor in 3½ or 4 fathoms, when the conspicuous tree on the centre of Amherst Island is in one with Amherst Point, which forms a Bluff close to the large Pagoda.

A Vessel getting at all to the northward, when outside the Reef Buoy, will avoid the S. W. extreme of the Goodwin Sand by keeping Amherst large Pagoda in one with the Reef Buoy, or open to the southward of it.

When inside the Reef Buoy the middle ground Buoy bearing E. 7° S. will take a Vessel clear of the South extreme of the Sand on the North side of the Channel, but it ought not to be brought to bear at all to the Sd. It is high water on full and change at the Reef Buoy at 2 hours.

Amherst large Pagoda is in { Latitude 16° 04' 46" N.
{ Longitude 97° 35' 06" E.

N. B.—In coming into the River keep all Black Buoys on your right hand and all Red on your left hand.

Extract from the Log of the Barque "Planet."

Wednesday, 7th September, 1842.—At 1 P. M. observed the water on the Starboard bow much

discoloured, kept the Ship away and sent a hand aloft to look out, who observed the same in patches as far as the eye could reach, running about W. S. W. and E. N. E. passed over the tail of one patch and had — near as we could suppose, 9 fathoms on a Sandy bottom a quantity of sand fast to the lead when hauled in. The extent of the Shoal appeared to be about 3 miles, Latitude 16° 23' N. Longitude 84° 10' East.

Captain Thompson further states that in the centre of this Shoal there were heavy breakers, the weather had been equally in the forenoon, but was then more moderate, though the breeze was fresh and a swell in consequence. They had no Meridian Observation, but the Longitude was determined and laid down by good sights taken that morning and an excellent Chronometer.

WEDNESDAY, JANUARY 11, 1843.

FORT WILLIAM, LEGISLATIVE DEPARTMENT.

THE 6TH JANUARY, 1843.

The following Draft of a proposed Act was read in Council for the first time on the 6th of January 1843.

ACT No. — OF 1843.

An Act for regulating inquiries into the truth of matters implicating the public conduct of Officers not removable without the sanction of Government within the Presidency of Fort St. George in Madras.

I. Whereas it is expedient to amend the provisions contained in the Regulations concerning inquiries into the truth of matters implicating the public conduct of European Officers, and to extend the same to all Officers not removable without the sanction of Government:

It is hereby enacted, that Regulations III. of 1809, II. of 1810, VI. of 1811, and VIII. of 1822, of the Madras Code, be repealed.

II. And it is hereby enacted, that in the Territories subject to the Presidency of Fort St. George in Madras, whenever either the Courts of Sudr and Foujdaree Adawlut, or the Board of Revenue, shall be of opinion that substantial grounds exist for making a regular and formal inquiry into the truth of any imputation of official misconduct affecting any Officer subject to their controul respectively, and not removable without the sanction of Government, they shall submit the documents on which their opinion may be founded, together with a statement of the charges reduced to distinct articles which they may propose to be made the subject of a regular investigation, to the Governor in Council of Fort St. George, for his consideration and orders.

III. And it is hereby enacted, that any charge or information, of the description aforesaid, may be preferred direct to the Courts of Sudr and Foujdaree Adawlut, or to the Board of Revenue, respectively, who shall examine the complainant or informant circumstantially upon oath, or upon solemn affirmation if he be entitled to be exempted from taking an oath, and require the party accused to explain or reply to any matters they may deem to need explanation and make such farther inquiries, upon oath or affirmation upon the subject as they may judge proper.

IV. And it is hereby enacted, that any charge or information may also be made before any Judge, Magistrate, or Collector, for any act of the description beforementioned committed within their jurisdiction, respectively, who shall examine the complainants or informant circumstantially upon oath, or upon solemn affirmation if he be entitled to be exempted from taking an oath, and shall transmit the deposition so taken to the Sudr and Foujdaree Adawlut, or to the Board of Revenue, according as the person accused may be brought to those Authorities respectively.

V. And it is hereby provided, that it shall not be lawful for the Courts of Sudr and Foujdaree Adawlut, or the said Board, respectively, to act upon any such charge or information, unless the person preferring the same shall make oath, or solemn affirmation in case he be entitled to be exempted from taking an oath, that he believes the facts on which the charge is grounded to be true.

VI. And it is hereby provided, that it shall be lawful for the Courts of Sudr and Foujdaree Adawlut, and for the said Board, respectively, to dismiss any such charge or information, where they do not see any substantial reason for entering further into the inquiry. Provided, that on every occasion when they shall dismiss any such charge or information, they shall submit the same, together with all the circumstances of the case, in like manner as is provided in Section II. of this Act.

VII. And it is hereby provided, that the said Courts of Sudr and Foujdaree Adawlut, and the said Board, respectively, may, at any stage of the inquiry into such matters as aforesaid, require the person preferring such charge or information as aforesaid to furnish such security as may be deemed reasonable that he will attend and prosecute the charge to a conclusion, and in the event of security being so required all proceedings shall be stayed until the same shall be furnished accordingly.

VIII. And it is hereby provided, nevertheless, that if any matter of the nature aforesaid, affecting such Officer as is mentioned in the second Section of this Act, shall appear in the course of any proceedings, whether preliminary or otherwise, which shall come before or be reported to either of the Courts of Sudr and Foujdaree Adawlut, or the said Board, respectively, those authorities shall act upon such matter, or institute such inquiry upon oath or affirmation as aforesaid, into the same as they shall deem proper for the purpose of such reference as aforesaid to the Governor in Council of Fort St. George, although no charge or information be preferred as aforesaid; and in such cases it shall not be necessary, before acting upon or instituting any inquiry concerning any matter so appearing in the course of proceedings, to require any oath or affirmation in regard to the truth of such matter.

IX. And it is hereby enacted, that if the Governor in Council of Fort St. George, upon such reference as is mentioned in the second Section of this Act, shall concur with the Authority by which it may be submitted, or if such Governor in Council shall, from information of the description aforesaid that may be laid before him in respect of any Officer not directly subject to the Courts or Board above named, deem it necessary to institute proceedings against any such Officer, he shall appoint a Commissioner or Commissioners for making a regular and formal inquiry into the truth of the matters referred.

And it is hereby enacted, that it shall be competent to the Governor in Council by an Order of Council to determine in all cases where such Commissioner or Commissioners shall hold their sittings—as well within the local limits of Her Majesty's Supreme Court, as beyond those limits.

X. And it is hereby enacted, that on the appointment of every such Commission, the said Governor in Council shall direct whether the Commission shall be placed under the control of any of the Authorities aforesaid, or shall act immediately under the authority of Government, and all Commissioners appointed as aforesaid shall be guided by the instructions which they may receive in this behalf from the Government.

XI. And it is hereby enacted, that the Commissioner or Commissioners appointed as aforesaid, before entering on the discharge of his or their duties, shall take the following oath:

I, A. B., Commissioner for the purpose of (here state the object of the Commission) do solemnly swear that I will faithfully and impartially perform the duty committed to me without fear, favor, or bias, to the best of my ability, knowledge, and judgment, so help me God.

XII. And it is hereby enacted, that whenever a charge shall be referred for investigation to a Special Commission the said Governor in Council will determine whether the conduct of the prosecution shall be left to the accused, or be undertaken on the part of Government. In the latter case, the said Governor in Council will nominate such person or persons as may be deemed proper to conduct the prosecution on behalf of Government.

XIII. And it is hereby enacted, that it shall be the duty of Commissioners appointed under this Regulation, after receiving the plaint or charge, and the documents from which the same may have been prepared, to call upon the person accused for his reply to the accusation; to examine upon oath, or under a solemn declaration, the witnesses named by the accuser or the accused; to receive any further written documents offered in support of, or against the accusation; and to call for and take any further requisite evidence which may be indicated by the witnesses adduced or documents exhibited by either party, and may appear to be necessary for the ascertainment of facts, or the discovery of the truth or falsehood of the charges, or of any part thereof.

XIV. And it is hereby enacted, that for the discharge of the duties specified in the preceding Section, or any other functions which may be delegated to a Commission under this Regulation, such Commission when holding its sittings without the local limits of the Supreme Court of Madras shall be vested with the same powers as are exercised by the Zillah Courts, except that all processes to cause the attendance of witnesses, or other compulsory process, shall be served through the Zillah Judge in whose jurisdiction the Commission may be held, and executed by the Zillah Judge in whose jurisdiction the witness or other person upon whom the process is to be served may reside.

XV. And it is hereby enacted, that whenever such Commission shall hold its sittings by Order of Council as aforesaid, within the local limits of Her Majesty's Supreme Court of Judicature, such Commissioners shall be vested with a power to examine on oath or solemn affirmation to call for documentary and all other evidence, which they deem necessary for the purpose of their enquiry, to summon and enforce the attendance before them of all witnesses wheresoever resident, to punish contempts, to commit for perjury, and to punish by fine and imprisonment, the refusal to attend on summons duly served, or the refusal to give evidence.

XVI. And it is hereby enacted, that the provisions of Act XXIII. of 1840 shall be applicable for all the purposes of such Commissions aforesaid, in the same

way as that Act is now applicable to Courts within the Provinces.

XVII. And it is hereby enacted, that in the event of any witness duly summoned by ordinary subpoena, or by subpoena duces tecum, through the medium of the Supreme Court (according as is prescribed in Act No. XXIII. of 1840) not attending before such Commissioner or Commissioners aforesaid, refusing to give evidence, or to produce such documentary evidence as may be called for by such Commissioner or Commissioners to issue process of arrest and search, and such process shall be executed through the Supreme Court, in the same manner as is prescribed in the Act for the execution of other process through the instrumentality of Her Majesty's Supreme Court of Judicature.

XVIII. And it is hereby enacted, that the provisions of Act XV. of 1835 shall be applicable (in cases of a Commission sitting within the limits of the Supreme Court) to the purposes of this Act—Provided, however, that in the case of any European British subject, rendering himself amenable to any of the penalties set forth in this Act, the Commissioner or Commissioners shall have the power to commit such person to the custody of the Superintendent of Police, for eventual trial before the Supreme Court, in the case of perjury or for temporary imprisonment under the award of such Commissioner or Commissioners.

XIX. And it is hereby enacted, that on the close of the evidence for the prosecution and defence, the accused shall be at liberty to record any observation upon the result of the inquiry which he may think necessary for the vindication of his conduct and character. The accuser, or the person appointed to conduct the prosecution on the part of Government, shall also be at liberty to record any remarks on the subject of the prosecution which he may deem requisite.

XX. And it is hereby enacted, that as soon after the conclusion of the proceedings as circumstances shall permit, the Commissioner or Commissioners shall, when the Commission shall be instructed to act immediately under the authority of Government, submit directly to the Government to which he or they may be subordinate, and in other cases to the Controlling Court or Board, the proceedings under the Commission, accompanied by translations of papers not in the English language, together with a summary of the pleadings and evidence, and his or their opinion of the merits of the case.

XXI. And it is hereby provided, that it shall be lawful for the said Governor in Council, or the Controlling Court or Board, upon consideration of the report of any such Commission as aforesaid, to direct the Commissioner or Commissioners to take farther evidence, or to give further explanation of his or their opinion or opinions connected with the case investigated, and the Commissioner or Commissioners are authorized and required to take such farther evidence, and to give such further explanation.

XXII. And it is hereby enacted, that the Sudr and Foujdaree Adawlut, or the Board to which any report of a Commissioner or Commissioners may be submitted as aforesaid after due consideration of the same, and after obtaining such further evidence or explanations as they may require, shall submit the whole of the proceedings and documents received by them to the Government, together with their opinion whether any and what charges have been established against the accused.

XXIII. And it is hereby provided, that whenever a Special Commission may be appointed under the Provisions of this Act, the said Governor in Council will determine, on a view of the nature and circumstances of the case, whether the accused Officer shall be suspended from the discharge of the functions of his office; and if so, whether he shall be permitted

to draw the established allowances of his office, or otherwise.

XXIV. And it is hereby provided, that the Governor in Council on consideration of the report and proceedings submitted to him in pursuance of Sections XX. and XXII. of this Act, will pass such decision on the case as may appear to him most consonant to the principles of justice and consistent with the powers possessed by Government in matters of this description; and in the event of his deeming it necessary that the party accused should be brought to trial by a public prosecution before a competent Court of Law, will issue the necessary instructions for that purpose to the Law Officers of Government. But whatever proceedings may be held, or whatever

~~decision or order may be passed by Government,~~
individuals deeming themselves aggrieved by any public Officer, will be at all times at liberty to seek redress according to the ordinary forms prescribed by law.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be re-considered at the first Meeting of the Legislative Council of India after the 6th day of April next.

IV. And it is hereby enacted, that any charge or information may also be made before any Judge, Magistrate, or Collector, for any acts of the description beforementioned committed within their jurisdiction, respectively, who shall examine the complainant or informant circumstantially upon oath, or upon solemn affirmation if he be entitled to be exempted from taking an oath, and shall transmit the disposition to be taken to the Sudr and Foudarres Adawlut, or to

the Board of Revenue, according as the person accused may be subject to those Authorities respectively.

V. And it is hereby provided, that it shall not be lawful for the Courts of Sudr and Foujdaree Adawlat, or the said Board, respectively, to act upon any such charge or information, unless the person preferring the same shall make oath, or solemn affirmation in case he be entitled to be exempted from taking an oath, that he believes the facts on which the charge is grounded to be true.

VI. And it is hereby provided, that it shall be lawful for the Courts of Sudr and Foujdaree Adawlat, and for the said Board, respectively, to dismiss any such charge or information, where they do not see any substantial reason for entering further into the inquiry. Provided, that on every occasion when they shall dismiss any such charge or information, they shall submit the same, together with all the circumstances of the case, in like manner as is provided in Section II of this Act.

VII. And it is hereby provided, that the said Courts of Sudr and Foujdaree Adawlat, and the said Board, respectively, may, at any stage of the inquiry into such matters as aforesaid, require the person preferring such charge or information as aforesaid to furnish such security as may be deemed reasonable that he will attend and prosecute the charge to a conclusion, and in the event of security being so required all proceedings shall be stayed until the same shall be furnished accordingly.

VIII. And it is hereby provided, nevertheless, that if any matter of the nature aforesaid, affecting such Officer as is mentioned in the second Section of this Act, shall arise in the course of any proceedings, whether preliminary or otherwise, which shall come before or be reported to either of the Courts of Sudr and Foujdaree Adawlat, or the said Board, respectively, those authorities shall act upon such matter, or institute such inquiry upon oath or affirmation as aforesaid, into the same as they shall deem proper for the purpose of such reference as aforesaid to the Governor in Council of Fort St. George, although no charge or information be preferred as aforesaid; and in such cases it shall not be necessary, before acting upon or instituting any inquiry concerning any matter so appearing in the course of proceedings, to require any oath or affirmation in regard to the truth of such matter.

IX. And it is hereby enacted, that if the Governor in Council of Fort St. George, upon such reference as is mentioned in the second Section of this Act, shall concur with the Authority by which it may be submitted, or if such Governor in Council shall, from information of the description aforesaid that may be laid before him in respect of any Officer not directly subject to the Courts or Board above named, deem it necessary to institute proceedings against any such Officer, he shall appoint a Commissioner or Commissioners for making a regular and formal inquiry into the truth of the matters referred. And it is hereby enacted, that it shall be competent to the Governor in Council by an Order of Council to determine in all cases where such Commissioner or Commissioners shall hold their sittings—as well within the local limits of Her Majesty's Supreme Court, as beyond those limits.

X. And it is hereby enacted, that on the appointment of every such Commission, the said Governor in Council shall direct whether the Commission shall be placed under the control of any of the Authorities aforesaid, or shall act immediately under the authority of Government, and all Commissions appointed as aforesaid shall be guided by the instructions which they may receive in this behalf from the Government.

XI. And it is hereby enacted, that the Commissioner or Commissioners appointed as aforesaid, before entering on the discharge of his or their duties, shall take the following oath:

I, A. B. Commissioner for the purpose of (here state the object of the Commission) do solemnly swear that I will faithfully and impartially perform the duty

committed to me without fear, favor, or bias, to the best of my ability, knowledge, and judgment; so help me God.

XII. And it is hereby enacted, that whenever a charge shall be referred for investigation to a Special Commission, the said Governor in Council will determine whether the conduct of the prosecution shall be left to the accuser, or be undertaken on the part of Government. In the latter case, the said Governor in Council will nominate such person or persons as may be deemed proper, to conduct the prosecution on behalf of Government.

XIII. And it is hereby enacted, that it shall be the duty of Commissioners appointed under this Regulation, after receiving the plaint or charge, and the documents from which the same may have been prepared, to call upon the person accused for his reply to the accusation; to examine upon oath, or under a solemn declaration, the witnesses named by the accuser or the accused; to receive any further written documents offered in support of, or against the accusation; and to call for and take any further requisite evidence which may be indicated by the witnesses adduced or documents exhibited by either party, and may appear to be necessary for the ascertainment of facts, or the discovery of the truth or falsehood of the charges, or of any part thereof.

XIV. And it is hereby enacted, that for the discharge of the duties specified in the preceding Section, or any other functions which may be delegated to a Commission under this Regulation, such Commission when holding its sittings without the local limits of the Supreme Court of Madras shall be vested with the same powers as are exercised by the Zillah Courts, except that all process to cause the attendance of witnesses, or other compulsory process, shall be served through the Zillah Judge in whose jurisdiction the Commission may be held, and executed by the Zillah Judge in whose jurisdiction the witness or other person upon whom the process is to be served may reside.

XV. And it is hereby enacted, that whenever such Commission shall hold its sittings by Order of Council as aforesaid, within the local limits of Her Majesty's Supreme Court of Judicature, such Commissioners shall be vested with a power to examine on oath or solemn affirmation to call for documentary and all other evidence, which they deem necessary for the purpose of their enquiry, to summon and enforce the attendance before them of all witnesses who ever resident, to punish contempts, to commit for perjury, and to punish by fine and imprisonment, the refusal to attend on summons duly served, or the refusal to give evidence.

XVI. And it is hereby enacted, that the provisions of Act XXIII. of 1840 shall be applicable for all the purposes of such Commissions aforesaid, in the same way as that Act is now applicable to Courts within the Provinces.

XVII. And it is hereby enacted, that in the event of any witness duly summoned by ordinary subpoena, or by subpoena duces tecum, through the medium of the Supreme Court (according as prescribed in Act No. XXIII. of 1840) not attending before such Commissioner or Commissioners aforesaid, refusing to give evidence, or to produce such documentary evidence as may be called for by such Commissioner or Commissioners to issue process of arrest and search, and such process shall be executed through the Supreme Court, in the same manner as is prescribed in the Act for the execution of other process through the instrumentality of Her Majesty's Supreme Court of Judicature.

XVIII. And it is hereby enacted, that the provisions of Act XV of 1893 shall be applicable (in case of a Commission sitting within the limits of the Supreme Court) to the purposes of this Act—Provided, however, that in the case of any European British subject, rendering himself amenable to any of the penalties set forth in this Act, the Commissioner or Commissioners shall have the power to commit such person to the custody

of the Superintendent of Police, for eventual trial before the Supreme Court, in the case of perjury or for temporary imprisonment under the award of such Commissioner or Commissioners.

XIX. And it is hereby enacted, that on the close of the evidence for the prosecution and defence, the accused shall be at liberty to record any observation upon the result of the inquiry which he may think necessary for the vindication of his conduct and character. The accuser, or the person appointed to conduct the prosecution on the part of Government, shall also be at liberty to record any remarks on the subject of the prosecution which he may deem requisite.

XX. And it is hereby enacted, that as soon after the conclusion of the proceedings as circumstances shall permit, the Commissioner or Commissioners shall, when the Commission shall be instructed to act immediately under the authority of Government, submit directly to the Government to which he or they may be subordinate, and in other cases to the Controlling Court or Board, the proceedings under the Commission, accompanied by translations of papers not in the English language, together with a summary of the pleadings and evidence, and his or their opinion of the merits of the case.

XXI. And it is hereby provided, that it shall be lawful for the said Governor in Council, or the Controlling Court or Board, upon consideration of the report of any such Commission as aforesaid, to direct the Commissioner or Commissioners to take further evidence, or to give further explanation of his or their opinion or opinions connected with the case investigated, and the Commissioner or Commissioners are authorized and required to take such further evidence, and to give such further explanation.

XXII. And it is hereby enacted, that the Sadr and Foujdaree Adawlut, or the Board to which any report of a Commissioner or Commissioners may be submitted as aforesaid after due consideration of the same, and after obtaining such further evidence or explanations as they may require, shall submit the whole of the proceedings and documents received by them to the Government, together with their opinion whether any and what charges have been established against the accused.

XXIII. And it is hereby provided, that whenever a Special Commission may be appointed under the Provisions of this Act, the said Governor in Council will determine, on a view of the nature and circumstances of the case, whether the accused Officer shall be suspended from the discharge of the functions of his office; and if so, whether he shall be permitted to draw the established allowances of his office, or otherwise.

XXIV. And it is hereby provided, that the Governor in Council on consideration of the report and proceedings submitted to him in pursuance of Sections XX. and XXII. of this Act, will pass such decision on the case as may appear to him most consonant to the principles of justice and consistent with the powers possessed by Government in matters of this description; and in the event of his deeming it necessary that the party accused should be brought to trial by a public prosecution before a competent Court of Law, will issue the necessary instructions for that purpose to the Law Officers of Government. But whatever proceedings may be held, or whatever decision or order may be passed by Government, individuals, deeming themselves aggrieved by any public Officer, will be at all times at liberty to seek redress according to the ordinary forms prescribed by law.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be re-considered at the first Meeting of the Legislative Council of India after the 6th day of April next.

GENERAL ORDERS BY THE HONORABLE THE PRESIDENT IN COUNCIL.

FORT WILLIAM, 13TH JANUARY, 1843.

No. 8 of 1840.—The Governor General is pleased to direct the publication of the following Despatch from Major General W. Nott, Commanding at Kandahar, dated 12th January 1842, omitted to be printed at the time of receipt.

Candahar, 12th January, 1842.

To Lieutenant Colonel STUART,

Mil'y. Secy. to the Govt. of India.

SIR,—I have the honor to acquaint you for the information of the Right Hon'ble the Governor General of India, that the rebel Army under the Command of Prince Sufet Jung, Attah Mahomed, and other Chieftains, having approached to within fifteen miles of Kandhar, I this morning moved out of the City with five and a half Regiments of Infantry, Shah's 1st Cavalry, a party of Skinner's Horse, and Sixteen Guns—after a march of four hours over a very difficult country, I came in sight of the rebel Army, from fifteen to twenty thousand men, drawn up in a strong position on the right Bank of the Urgundab, I immediately crossed the River, the troops marched to the attack, and in twenty minutes carried their position and dispersed their whole Army—the Cavalry with a troop of Horse Artillery were instantly sent in pursuit and followed the fugitives about eight miles. The Enemy's loss was severe, their fire was high and wild, and our loss has been very trifling. I enclose a list of killed and wounded.

I beg to bring to the favorable notice of Government the following Officers who Commanded Corps and Detachments:

Lieutenant Colonel Wymer, 38th Regiment N. I.
Lieutenant Colonel McLaren, 16th Native Infantry.
Major Lane, 2d Native Infantry.
Major Hibbert, Her Majesty's 40th Regiment.
Captain Dalyell, in charge of a Wing of the 42d N. I.
Captain MacDonell, Shah's 5th Infantry.
Captain Anderson, Bengal Artillery.
Captain Leeson, Shah's 1st Cavalry, and
Captain Haldane, Skinner's Horse.

My thanks are due to the Captains Polwhele and Scott, Brigade Majors—to Major Sanders, Bengal Engineers, for his constant zeal and exertions—to Lieutenant North, Bombay Engineers, and to Lieutenant Tytler, Assistant Quarter Master General.

Major Rawlinson, Political Agent, was in the field, and kindly acted as one of my Staff.

The Troops, both European and Native, behaved with their usually gallantry.

I am, &c.
